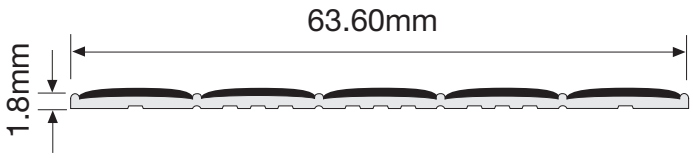
N5-070 Anti/Slip Step Edge Contrast 64mm



The N5-070 Anti-Slip/Step Edge Contrast is designed to both define the step edge and help prevent slips and falls in all weather conditions.

PERFORMANCE

N5-070 is suitable for use indoors and outdoors.
The anti-slip material provides all weather protection from slips and falls.

Anti-slip Properties –
UL410 Standard for Slip Resistance for Floor Surface Materials AS/NZS 4586-2004 Classification: Dry: F Wet: V Ramp: R12 AS 4586-2013 Classification: P5

Salt Spray Resistance – ASTM B117: Pass

Washability – ASTM D4828: Pass

Rate of Burning – ASTM D635: Pass

Surface Flammability – ASTM E162: Pass

Toxicity – Bombardier Toxic Gas Generation Test SMP800-C: Pass

Radioactivity – ASTM D3648: Pass

SUPPLY

The product is available in 100mm increments from 800mm to 1500mm. Custom lengths can also be fabricated on site from 2.45 metre and 3.06 metre lengths.

COMPOSITION

Ecoglo N5-070 is manufactured from extruded 6063T5 aluminium section. Silicon Carbide anti-slip materials are embedded in thermoset polyester carriers to integrally bond the active ingredients into the aluminium following curing at high temperature.

HTC
HIGH TEMPERATURE CURING

INSTALLATION

Indoors N5-070 can be surface mounted on all smooth surfaces.
Outdoors N5-070 can be surface mounted onto concrete.

Maximum recommended length for outdoor installation is 1500mm.

Installation needs to be carried out strictly in accordance with the Ecoglo installation instructions.

Consult Installation Instructions on website for full details and surface preparation.

Screws can be used if adhesion is difficult.
(See order codes below for the product that best suits).

N5-070 For polyurethane adhesive fixing
N5-070P Punched for screw fixing
