

Photoluminescent Tape is designed to ensure visibility of specified features in escape routes for compliance with NFPA 101 Life Safety Code (NFPA 101) and International Fire Code (IFC). The tape will be effective in all light conditions including failure of the main lighting.

COMPLIANCE

UL 1994 Listed and NFPA 101 and IFC compliant.
The Photoluminescent Tape can be used in Performance Solutions to meet the requirements of any performance based building codes.

Brightness – High visibility in light or dark conditions meets UL 1994.

SUPPLY

The product comprises one roll of photoluminescent tape and one roll of adhesive tape and is available in rolls of 3 metres.

COMPOSITION

Manufactured using high quality vinyl, the Photoluminescent Tape includes a separate adhesive tape which is long lasting and provides a superior bond to a variety of surfaces.

INSTALLATION

Installation is a simple process using supplied adhesive tape.

UL-PT2503 25mm wide x 3m roll
