

The UL-PT2518 Photoluminescent Tape is designed to ensure visibility of specified features in escape routes for compliance with NFPA 101 Life Safety Code (NFPA 101) and International Fire Code (IFC). The tape will be effective in all light conditions including failure of the main lighting.

COMPLIANCE

UL 1994 Listed and NFPA 101 and IFC compliant.
Can be used in Performance Solutions to meet the requirements of any performance based building codes.

Brightness – High visibility in light or dark conditions meets UL 1994.

SUPPLY

The photoluminescent tape is available in rolls of 18 metres.

COMPOSITION

Manufactured using high quality vinyl, the UL-PT2518 Photoluminescent Tape has a premium integrated adhesive which provides a superior bond to a variety of surfaces.

INSTALLATION

Installation is a simple process using pre-fitted release tape.
