COMPOSITION

The F14-180 Step Nosing profile consists of 6060T5 aluminium extrusion, anodized (natural/silver colour) to 20 microns thickness.

Ecoglo N15-080 Step Edge Contrast is adhesively fixed into the extrusion. The insert is manufactured from extruded 6063T5 aluminium section. Silicon carbide and/or aluminium oxide anti-slip materials are embedded in thermoset polyester carriers to integrally bond the active ingredients into the aluminium following curing at high temperature.

INSTALLATION

The F14-180 Step Nosing is installed with hidden fixers and can be used on a range of substrates including concrete, timber, tiles, vinyl, steel and checker plate. Uni clamp assemblies can be used for installation onto steel mesh steps.

Maximum recommended length for outdoor installation is 1500mm.

Installation is a two step process and needs to be carried out strictly in accordance with the Ecoglo installation instructions.

Consult Installation Instructions on website for full details and surface preparation.
